

SomNOG9 Conference

Wednesday, 23 September 2026 - Thursday, 24 September 2026

TBD

Scientific Programme

Connected by Design: Advancing Somalia's Digital Infrastructure and Integrated Public Services

Sub-theme 1: Infrastructure and Data Sovereignty

Internet Exchange Points (IXPs), local traffic routing, national data centers, data residency and sovereignty, and reducing dependence on international transit infrastructure.

Sub-theme 2: Integrated Government and Public Services

Government Enterprise Architecture (GEA), API-driven integration, shared data standards, citizen-centered service delivery, and eliminating repeated registration burdens on citizens and institutions.

Sub-theme 3: Cybersecurity and National Resilience

National cyber resilience, incident response coordination, cybersecurity governance, critical infrastructure protection, and Somalia's evolving national cybersecurity ecosystem.

Sub-theme 4: Digital Identity and Trust Infrastructure

Digital identity frameworks, Public Key Infrastructure (PKI), Digital Public Infrastructure (DPI), trusted digital transactions, and authentication and trust services.
